GERMAN DELEGATION

COCOM DOC. 3425

Paris, February 24th, 1959

MEMORANDUM BY THE GERMAN DELEGATION
ON THE EXPORT TO POLAND OF GONIOMETER
DIRECTION FINDING EQUIPMENT

67

The German authorities have received an application to license the export to Poland of

3 mobile goniometer direction finding sets,
type Telegone III S
covered by item 1501 d)4)
of a total value of \$6819.40

The above sets which operate at a frequency range between 1.6 and 9.2 mc/s are required by the Polish post administration for finding disturbances of the radio-transmittance in the District of Warsaw. Assurances against re-export and trans-shipment will be received from the Polish side.

However, the equipment which can be fitted into motor-cars is also suitable for the detection and location of unknown transmitter-stations (pirate transmitters) as well as receiving of the news-programs of observed transmitters.

The German Delegation wish to have the views of Member Governments on the above case at an early opportunity.
